Private Medical Insurance

A healthy workforce is a productive one. Find healthcare cover that benefits your employees and the business.

Health is a big issue for everyone. Private Medical Insurance can help boost productivity and employee retention. It could be the best business investment you ever make.”

What is Private Medical Insurance

Private Medical Insurance offers your employees access to private medical treatment and care.

If an employee gets a diagnosis or referral for treatment from their doctor, the cover will allow them to receive treatment privately rather than through the NHS.

By covering the cost of private healthcare, it means your workforce benefit from reduced waiting times and fast access to treatment.

Private Medical Insurance also means your employees can access treatment for mental health, physiotherapy and serious illnesses – healthcare they may otherwise be unable to access.

As the NHS faces mounting pressure, offering group Private Medical Insurance to your employees helps set you apart from other employers. It shows you put your staff first and are willing to give them that little bit extra.

The cost of private healthcare can be high. A company health insurance policy can help your employees cover those costs.

Business Benefits of Private Medical Insurance

What would be the cost to your business if one of your key staff members fell seriously ill? With today's race for talent and the increase in working days lost through illness, Private Medical Insurance has become a must.

If you're looking to grow your team, employee benefits can help you attract top talent and keep your workforce healthy and productive.

By giving your employees the healthcare they deserve, your business can also benefit:

- Key members of your team are protected
- Business productivity increases
- Team morale is given a boost
- Rates of absenteeism and presenteeism are reduced

At Shire Health & Wellbeing, we can find you health cover to help your employees stay fit and active. By working with the UK's leading insurance providers, our experienced specialists can find the right policies to suit you and your business' needs.

Benefits to Your Staff

Private Medical Insurance is a popular benefit with employees.

Not only does it give them access to private healthcare, it also provides peace of mind when they need it the most. Your employees will be able to benefit from fast access to diagnosis, treatment and recovery, as well as flexible appointment times.

Depending on the level of cover, Private Medical Insurance can also include:

- Private hospital room
- Choice of consultants and specialists
- Choice of hospital
- Flexible visiting hours
- Cover for immediate family members
